- It not so easy to be a teenager, as it seems.
- Teenagers need to work hard at school, to obey their parents.
- They sometimes have stress, they're sometimes naughty, their mood is changing all the time. And very often parents don't know what to do with their teenage children.

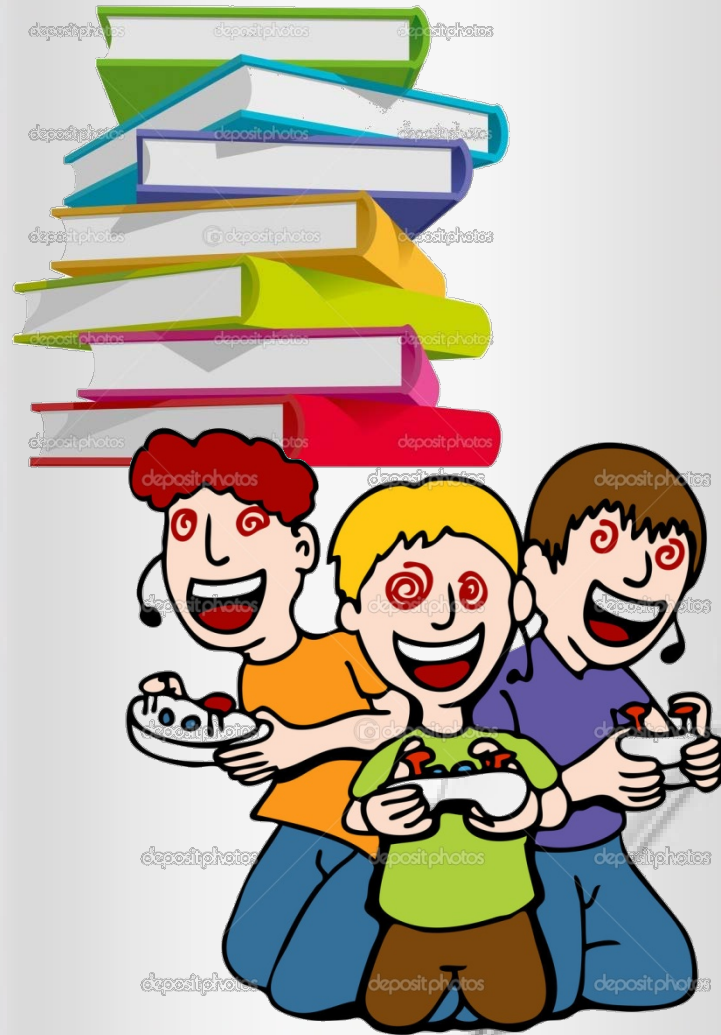

A lot of teenagers have extra-curricular lessons. For example: piano lessons, or art lessons. Some of them have sport activities, like football, athletics, gymnastics and so on.

One part of teenagers love reading, while another one love playing computer games. The second part is bigger, but why? I think that's because our parents make us read. Another reason is that all children have different favourite genres. But in schools we have one list of literature and most of it consists of classical books.

# Groups:

1 group.	2 group.	3 group.

- My activities are: the piano lessons and fitness.
- In my free time I listen to music, dancing, reading or playing computer games.
